ABOUT US
LES ENFANTS

LES ENFANTS

Les Enfants Private Nursery is set in a beautiful Victorian building. Established for over 25 years, Les Enfants provides a home from home environment for local children. Catering for local busy working families we offer parents flexibility and peace of mind while they make their commute to work.

Within the extensive gardens, the children access varied play equipment and have fun in the undercover area on those unavoidable rainy days! The well-planned and stimulating environment, combined with quality resources, helps to ensure that children are provided with an educational programme that has depth and breadth across the curriculum

The stimulating, caring day nursery, out of school and holiday club offers an exciting provision for children aged 0-11 years.

We welcome you to visit us and see us in action.

Highly qualified staff 

Early years teacher input 

Close links to local school 

Off-road parking 

Excellent access to local
motorway networks 

BABY ROOM

LES ENFANTS

BABY ROOM
LOVE YOUR BABY

LOVE YOUR BABY

Specially designed for our youngest nursery children, this room provides a loving home-like environment where children grow and flourish. Our experienced and highly skilled practitioners encourage the children to independently explore and discover the world around them, whilst being responsive and attentive to both the babies' and their parents' needs.

Learning and developing in these tender years happens through varied play opportunities, enriching the babies' days. Whether it involves creative time, messy play or sensory experiences, it always involves fun! Sleep is very important, and our babies enjoy a rest in a quiet, dedicated sleep area allowing them to recharge their batteries for more fun later in the day!

Cushion floor area for tummy time 

Purpose built nappy changing area 

Secure outdoor play area 

TODDLER ROOM
ACHIEVEMENT IS KEY

ACHIEVEMENT IS KEY

The world becomes a bigger place and life gets more exciting as your baby becomes a toddler. A time of great adventure and discovery, the toddlers explore their physical development and extend their curiosities in a variety of areas. We provide a range of activities on different levels for our toddlers to explore, as they start to make their own choices about which areas to investigate.

From fun, social time such as circle time and singing, there are equally areas for quiet time, perhaps story time with a practitioner, and areas in which your child can be creative. Children at this age develop walking, balance and co-ordination skills, but also begin the important process of learning to form friendships and socialise with those of their own age. At mealtimes children are encouraged to feed themselves and by sitting with the practitioners at the table, start to enjoy the social aspect of mealtimes.

NURSERY

LES ENFANTS

NURSERY
INVOLVE ME AND I LEARN

INVOLVE ME AND I LEARN

As your child moves into our 2-3-year-old's room, their exploration and co-operation skills develop more strongly, as they acquire discovery through play and enjoyment. As the practitioners introduce more structured activities, we ensure your child is constantly learning and being stimulated to experience new things. Children also learn to express themselves and their needs, and show sensitivity to their friends, with emphasis placed on positive behaviour.

While the children have the freedom to choose what to play with, they will also start to play games alongside each other, and will begin to show more independence in their own daily routine, for example, the children learn to serve their meals and dress themselves. This independence is gently encouraged and the practitioners will work closely alongside you and your child when you feel they are ready to start toilet training.

Children's communication and language development progresses during their time in this room. The children are often keen to share with us their experiences both from home and within nursery.

PRE SCHOOL

LES ENFANTS

PRE SCHOOL
MAKING MAGICAL MEMORIES

MAKING MAGICAL MEMORIES

In this room, we prepare your child for a seamless transition to the great adventure that lies ahead: big school!

Pre-school is an important time in a child's life as they learn about the world and those around them. Our Pre-school staff provide a wide range of child-centred activities to create plenty of stimulating challenges. Our highly experienced team ensure that each child is happy, healthy, safe and motivated to learn and try new things, and we nurture the children to develop their skills, knowledge and attitudes. Within this room our highly skilled staff help children work towards the "Early Learning Goals" (the knowledge, skills and understanding that children should have at the end of the academic year in which they turn 5).

Key workers continue to assess and chart children's progress, and we involve parents every step of the way. Regular newsletters let parents know about upcoming topics and events within the room, such as celebrating festivals which are important here at home and across the world. These regular updates allow parents to support and encourage learning.
